

2023-24 ACCELERATED READER PROGRAM GUIDELINES

Grades 2-6

- The Accelerated Reader Program enhances classroom reading instruction by encouraging students to read a variety of books and to develop lifelong reading habits. This program has been proven to increase reading comprehension and vocabulary for students on all reading levels.
- The STAR Reading Test will be used to determine your student's reading range (ZPD-Zone of Proximal Development). Your student's ZPD will be sent home in a letter after the first STAR test is completed in August. Each student should choose Accelerated Reader books based on the reading range assigned at the beginning of the year. Quizzes will be deleted and points will be lost if a student tests below their ZPD range.
- Although students will have access to over 210,000 quizzes, we may not necessarily have the book available in the library. We encourage you, as parents/guardians, to be aware of what your students are reading. Visit www.arbookfind.com to determine if a book has a quiz.
- When a student finishes an AR book, he/she will take a computerized "reading practice quiz" that will check comprehension. Students can earn points based on these quizzes. The tests must be taken at school and may not be accessed at home. **Testing can be completed in the library beginning at 7:45 and also in the classroom as a student's teacher allows.**
- If the student needs assistance, he or she may ask the classroom teacher or library personnel for help. This program is a great opportunity for students to practice independence and learn personal responsibility.
- Students may not use their book while testing. Students also may not test on books that they have not read. Both of these instances are considered cheating, and the test will be deleted from the account. Further consequences will be determined by Dr. Farien.
- Students are assigned a point goal in each grade:
 - 2nd grade – 10 points each nine weeks**
 - 3rd grade – 12 points each nine weeks**
 - 4th grade – 17 points each nine weeks**
 - 5th grade – 22 points each nine weeks**
 - 6th grade – 27 points each nine weeks**

At the final awards assembly, special recognition is given to students who achieve their point goals every nine weeks and to the top point achievers in each grade level (2-6).

- Classroom teachers will assign two test grades each nine weeks to each student's reading class grade. One grade will be based on the number of points earned, and the other grade will be based on the average percent of questions that were answered correctly.

- The AR cutoff date for each nine weeks will be at 4:00 PM on the following dates:

1st nine weeks – Tuesday, October 10

2nd nine weeks – Monday, December 11

3rd nine weeks – Monday, March 4

4th nine weeks -- Monday, May 13

- The Accelerated Reader Home Connect feature is available if you choose to sign up. Creating an account will allow you to receive notifications regarding your student's testing results and progress. More information on this feature will be given at the start of the school year in your student's Friday folder.

- We appreciate your efforts in helping motivate your child to read!

Sincerely,

Carrie McDaniel
Director of Library Services
